Contents

Abeles M → Gottlieb Y
Andreassen S → Toft E
Arbuthnott G W → Walker R H
Ashby P → Brouwer B

Baldissera F, Pierrot-Deseilligny E: Facilitation of transmission in the pathway of non-monosynaptic Ia excitation to wrist flexor motoneurones at the onset of voluntary movement in man 437
Baker G E, Guillery R W: Evidence for the delayed expression of a brainstem abnormality in albino ferrets 658
Bauer R, Hoffmann K P, Huber H P, Mayr M: Different anisotropies of movement direction in upper and lower layers of the cat's area 18 and their implications for global flow processing 395
Bekoff A, Kauer J A, Fulstone A, Summers T R: Neural control of limb coordination. II. Hatching and walking motor output patterns in the absence of input from the brain 609
Bingmann D, Speckmann E-J: Specific suppression of pentylenetetrazol-induced epileptiform discharges in CA3 neurons (hippocampal slice, guinea pig) by the organic calcium antagonists flunarizine and verapamil 239
Bischof H-J → Engelage J
Bizec J le → Demairé C
Blanks R H I → Hess B J M
Boman D K, Hotson J R: Motion perception prominence alters anticipatory slow eye movements 555
Brené S → Seroogy K
Brodin E → Freedman J
Brodin E → Lindefors N
Brouwer B, Ashby P, Midroni G: Excitability of corticospinal neurons during tonic muscle contractions in man 649
Brownstein M → Seroogy K

Castro A J → Reinoso B S
Ceccatelli S, Millhorn D E, Hökfelt T, Goldstein M: Evidence for the occurrence of an enkephalin-like peptide in adrenaline and noradrenaline neurons of the rat medulla oblongata 631
Chai S Y → Seroogy K
Cianci T → Lenzi P
Coquery J M → Demairé C
Craig A D Jr., Linington A J, Kniffki K-D: Significant differences in the retrograde labeling of spinothalamic tract cells by horseradish peroxidase and the fluorescent tracers fast blue and diamidino yellow 431
Crawford M L J, Faber J-T de , Harwerth R S, Smith E L III, Noorden G K von: The effects of reverse monocular deprivation in monkeys. II. Electrophysiological and anatomical studies 338
Crawford M L J → Harwerth R S
Crenna P → Pedotti A
Curtis D R → Gynther B D

Dagerlind Å → Seroogy K
Davidson M → Murray E A
Deat A → Pedotti A
Deecke L → Lang W
Demairé C, Honoré J, Le Bizec J, Coquery J M: Specific modulation of the Hoffmann reflex cutaneous facilitation during a reaction-time task 592
Diamond A, Goldman-Rakic P S: Comparison of human infants and rhesus monkeys on Piaget's $A\overline{B}$ task: evidence for dependence on dorsolateral prefrontal cortex 24
Diana M, Garcia-Munoz M, Richards J, Freed C R: Electrophysiological analysis of dopamine cells from the substantia nigra pars compacta of circling rats 625
Diemer N H → Tønder N
Dixon J → Seroogy K

Eacott M J, Gaffan D: Interhemispheric transfer of visual learning in monkeys with intact optic chiasm 348
Ebendal T → Eriksdotter-Nilsson M
Engelage J, Bischof H-J: Flash evoked potentials in the ectostriatum of the zebra finch: a current source-density analysis 563
Eriksdotter-Nilsson M, Skirboll S, Ebendal T, Hersh L , Grassi J, Massoulié J, Olson L: NGF treatment promotes development of basal forebrain tissue grafts in the anterior chamber of the eye 89
Ezure K, Manabe M: Monosynaptic excitation of medullary inspiratory neurons by bulbospinal inspiratory neurons of the ventral respiratory group in the cat 501

Faber J-T de → Crawford M L J
Fernandez de Molina A → Velasco J M
Filer D → Seroogy K
Fischer J A → Freedman J
Flugsrud G → Heggelund P
Franchi G → Guandalini P
Franzini C → Lenzi P
Freed C R: Electrophysiological analysis of dopamine cells from the substantia nigra pars compacta of circling rats 625
Freed C R → Diana M
Freedman J, Hökfelt T, Post C, Brodin E, Sundström E, Jonsson G, Terenius L, Leander S, Fischer J A, Verhofstad A: Immunohistochemical and behavioral analysis of spinal lesions induced by a substance P antagonist and protection by thyrotropin releasing hormone 279
Frigo C → Pedotti A
Fulstone A → Bekoff A

Gaffan D, Harrison S: Place memory and scene memory: effects of fornix transection in the monkey 202
Gaffan D → Eacott M J
Gaffan D → Markowska A L
Gaffan D → Murray E A
Galli L, Rao K , Lund R D: Transplanted rat retinae do not project in a topographic fashion on the host tectum 427

Garcia-Munoz M → Diana M
Ghosh S → Waldron J N B
Giaume C → Peusner K D
Giuffrida R, Rustioni A: Glutamate and aspartate immunoreactivity in cortico-cortical neurons of the sensorimotor cortex of rats 41
Goldman-Rakic P S → Diamond A
Goldstein M → Ceccatelli S
Goldstein M → Seroogy K
Gottlieb Y, Vaadia E, Abeles M: Single unit activity in the auditory cortex of a monkey performing a short term memory task 139
Grassi J → Eriksdotter-Nilsson M
Graybiel A M → Jimenez-Castellanos J
Greenfield S A → Harris N C
Greenfield S A → Kapoor R
Guandalini P, Franchi G, Semenza P, Spidalieri G: The functional development of input-output relationships in the rastral portion of the corpus callosum in the kitten 453
Guillery R W → Baker G E
Gynther B D, Curtis D R: Post-tetanic influences on primary afferent depolarization in the cat spinal cord 365

Hämäläinen M → Hari R
Hámori J, Takács J: Two types of GABA-containing axon terminals in cerebellar glomeruli of cat: an immunogold-EM study 471
Hari R, Hämäläinen M, Kaukoranta E, Mäkelä J, Joutsiniemi S-L, Tiihonen J: Selective listening modifies activity of the human auditory cortex 463
Harris N C, Ramsay S, Kelion A, Greenfield S A: Electrophysiological evidence for the dendritic localization of a calcium conductance in guinea-pig substantia nigra neurones in vitro 411
Harrison S → Gaffan D
Harwerth R S, Smith E L III, Crawford M L J, Noorden G K von : The effects of reverse monocular deprivation in monkeys. I. Psychophysical experiments 327
Harwerth R S → Crawford M L J
Hayashi M, Yamashita A, Shimizu K, Oshima K: Ontogeny of cholecystokinin-8 and glutamic acid decarboxylase in cerebral neocortex of macaque monkey 249
Heggelund P, Karlsen H E, Flugsrud G, Norddtug T: Response to rates of luminance change of sustained and transient cells in the cat lateral geniculate nucleus and optic tract 116
Henneman E → Lüscher H-R
Hersh L → Eriksdotter-Nilsson M
Hess B J M, Blanks R H I, Lannou J, Precht W: Effects of kainic acid lesions of the nucleus reticularis tegmenti pontis on fast and slow phases of vestibulo-ocular and optokinetic reflexes in the pigmented rat 63
Hilaire G → Khatib M
Himmelmann F → Seitz R J

Hník P → Paleček J
Hökfelt T → Ceccatelli S
Hökfelt T → Freedman J
Hökfelt T → Seroogy K
Hoffmann K P → Bauer R
Honoré J → Demairé C
Hood J D, Marriage J E: Observations bearing upon semi-circular canal dynamics 603
Hotson J R → Boman D K
Huan R → Seroogy K
Huber H P → Bauer R
Huisman E → Kamphuis W

Illing R-B: The mosaic of the uncrossed retinal projection in the superior colliculus of the cat 641
Inoue T, Kato T, Masuda Y, Nakamura T, Kawamura Y, Morimoto T: Modifications of masticatory behavior after trigeminal deafferentation in the rabbit 579

Jimenez-Castellanos J, Graybiel A M: Evidence that histochemically distinct zones of the primate substantia nigra pars compacta are related to patterned distributions of nigrostriatal projection neurons and striatonigral fibers 227
Jørgensen M B → Tønder N
Johansen F F → Tønder N
Jonsson G → Freedman J
Joutsiniemi S-L → Hari R

Kamphuis W, Huisman E, Wadman W J, Lopes da Silva F H: Decrease in GABA immunoreactivity and alteration of GABA metabolism after kindling in the rat hippocampus 375
Kapoor R, Webb C, Greenfield S A: Endogenous dopamine modifies electroresponsiveness of pars compacta cells in the guinea pig substantia nigra in vitro 653
Karlsen H E → Heggelund P
Kato T → Inoue T
Kauer J A → Bekoff A
Kaukoranta E → Hari R
Kawamura Y → Inoue T
Keizer K, Kuypers H G J M: Distribution of corticospinal neurons with collaterals to the lower brain stem reticular formation in monkey *(Macaca fascicularis)* 311
Kelion A → Harris N C
Kesner R P: Retrospective and prospective coding of information: role of the medial prefrontal cortex 163
Khatib M, Hilaire G, Monteau R: Excitatory interactions between phrenic motoneurons: intracellular study in the cat 131
Kniffki K-D → Craig A D Jr.
Korr H, Schultze B: Unscheduled DNA synthesis in various types of cells of the mouse brain in vivo 573
Koska C → Lang W
Kuypers H G J M → Keizer K

Lacquaniti F → Soechting J F
Lang W, Zilch O, Koska C, Lindinger G, Deecke L: Negative cortical DC shifts preceding and accompanying simple and complex sequential movements 99
Lannou J → Hess B J M
Lansdown G → Timney B
Leander S → Freedman J
Lenzi P, Cianci T, Leonardi G S, Martinelli A, Franzini C: Muscle blood flow changes during sleep as a function of fibre type composition 549
Leonardi G S → Lenzi P
Lindefors N, Brodin E, Tossman U, Segovia J, Ungerstedt U: Tissue levels and in vivo release of tachykinins and GABA in striatum and substantia nigra of rat brain after unilateral striatal dopamine denervation 527
Lindinger G → Lang W
Linington A J → Craig A D Jr.
Lipfert P → Seitz R J
Lopes da Silva F H → Kamphuis W
Lüscher H-R, Vardar U: A comparison of homonymous and heteronymous connectivity in the spinal monosynaptic reflex arc of the cat 480
Lüscher H-R, Stricker C, Henneman E, Vardar U: Influences of morphology and topography of motoneurons and muscle spindle afferents on amplitude of single fiber excitatory postsynaptic potentials in cat 493
Lund R D → Galli L

Maekawa K → Takeda T
Mäkelä J → Hari R
Manabe M → Ezure K
Markowska A L, Olton D S, Murray E A, Gaffan D: A comparative analysis of the role of fornix and cingulate cortex in memory: rats 187
Marks G A, Speciale S G, Roffwarg H P: Sleep state-specific neuronal activity in rat dorsal lateral geniculate nucleus is not altered by local serotonin and norepinephrine depletion 402
Marriage J E → Hood J D
Martinelli A → Lenzi P
Massion J → Pedotti A
Massoulié J → Eriksdotter-Nilsson M
Masuda Y → Inoue T
Matsumoto N, Sato T, Suzuki T A: Characteristics of the tooth pulp-driven neurons in a functional column of the cat's somatosensory cortex (SI) 263
Mayr M → Bauer R
Midroni G → Brouwer B
Millhorn D E → Ceccatelli S
Mitova L → Vassilev A
Monteau R → Khatib M
Mori S → Takakusaki K
Morimoto T → Inoue T
Murray E A, Davidson M, Gaffan D, Olton D S, Suomi S: Effects of fornix transection and cingulate cortical ablation on spatial memory in rhesus monkeys 173
Murray E A → Markowska A L

Nagasaki H: Asymmetric velocity and acceleration profiles of human arm movements 319
Nakamura T → Inoue T
Noorden G K von → Crawford M L J
Noorden G K von → Harwerth R S
Nordtug T → Heggelund P

Ohta Y → Takakusaki K
Olson L → Eriksdotter-Nilsson M
Olton D S → Markowska A L
Olton D S → Murray E A
Oshima K → Hayashi M

Paleček J, Vejsada R, Soukup T, Hník P: Function and structure of atypical muscle spindles after neonatal nerve crush in rats 417
Pedotti A, Crenna P, Deat A, Frigo C, Massion J: Postural synergies in axial movements: short and long-term adaptation 3
Pelleg-Toiba R, Wollberg Z: Tuning properties of auditory cortex cells in the awake squirrel monkey 353
Pérez D → Velasco J M
Persson H → Seroogy K
Peusner K D, Giaume C: Electrophysiological study of the tangential vestibular nucleus of the chick embryo "in vitro" 80
Pierrot-Deseilligny E → Baldissera F
Post C → Freedman J
Precht W → Hess B J M

Ramsay S → Harris N C
Rao K → Galli L
Reinoso B S, Castro A J: A study of corticospinal remodelling using retrograde fluorescent tracers in rats 387
Ribaupierre F de → Rouiller E M
Richards J → Diana M
Roffwarg H P → Marks G A
Rouiller E M, Ribaupierre F de: Note on the tonotopic organization in the cat medial geniculate body: influence of sampling of units 220
Ruegg D G: Ia afferents of the antagonist are inhibited presynaptically before the onset of a ballistic muscle contraction in man 663
Rustioni A → Giuffrida R
Ryba N, Uhl R: In vitro dark adaptation and preservation of electrical light responses in the retina from bovine eyes 618

Sato T → Matsumoto N
Schalling M → Seroogy K
Schlessinger D → Seroogy K
Schultze B → Korr H
Segovia J → Lindefors N
Seitz R J, Lipfert P, Willrich A, Himmelmann F: Toxic effects of triethyldodecylammoniumbromide (TEA-C_{12}) on myelinated nerve fibers and blood-nerve barrier in the mouse 293
Semenza P → Guandalini P
Seroogy K, Schalling M, Brené S, Dagerlind Å, Chai S Y, Hökfelt T, Persson H, Brownstein M, Huan R, Dixon J, Filer D, Schlessinger D, Goldstein M: Cholecystokinin and tyrosine hydroxylase messenger RNAs in neurons of rat mesencephalon: peptide/monoamine coexistence studies using in situ hybridization combined with immunocytochemistry 149
Shimizu K → Hayashi M
Sinkjaer T → Toft E
Skirboll S → Eriksdotter-Nilsson M
Smith E L III → Crawford M L J
Smith E L III → Harwerth R S

Soechting J F, Lacquaniti F: An assessment of the existence of muscle synergies during load perturbations and intentional movements of the human arm 535
Sørensen T → Tønder N
Soriano E → Welker E
Soukup T → Paleček J
Speciale S G → Marks G A
Speckmann E-J → Bingmann D
Spidalieri G → Guandalini P
Stricker C → Lüscher H-R
Summers T R → Bekoff A
Sundström E → Freedman J
Suomi S → Murray E A
Suzuki T A → Matsumoto N
Suzuki T A → Sato T

Takács J → Hámori J
Takakusaki K, Ohta Y, Mori S: Single medullary reticulospinal neurons exert postsynaptic inhibitory effects via inhibitory interneurons upon alpha-motoneurons innervating cat hindlimb muscles 11
Takeda T, Maekawa K: Olivary branching projections to the flocculus, nodulus and uvula in the rabbit. I. An electrophysiological study 47
Terenius L → Freedman J
Tiihonen J → Hari R
Tiligada E, Wilson J F: D2- but not D1-dopamine receptors are involved in the inhibitory control of alpha-melanocyte-stimulating hormone release from the rat hypothalamus 645
Timney B, Lansdown G: Binocular depth perception, visual acuity and visual fields in cats following neonatal section of the optic chiasm 272
Tønder N, Sørensen T, Zimmer J, Jørgensen M B, Johansen F F, Diemer N H: Neural grafting to ischemic lesions of the adult rat hippocampus 512
Toft E, Sinkjaer T, Andreassen S: Mechanical and electromyographic responses to stretch of the human anterior tibial muscle at different levels of contraction 213
Tossman U → Lindefors N

Uhl R → Ryba N
Ungerstedt U → Lindefors N

Vaadia E → Gottlieb Y
Van der Loos H → Welker E
Vardar U → Lüscher H-R
Vassilev A, Zlatkova M, Mitova L: Length and width summation in human vision at different background levels 421
Vejsada R → Paleček J
Velasco J M, Fernandez de Molina A, Pérez D: Suprarhinal cortex response to electrical stimulation of the lateral amygdala nucleus in the rat 168
Verhofstad A → Freedman J

Wadman W J → Kamphuis W
Waldron J N B, Ghosh S, Zarzecki P: Multiple inputs to a population of thalamocortical neurons projecting to cat somatosensory cortex 105
Walker R H, Arbuthnott G W, Wright A K: Electrophysiological and anatomical observations concerning the pallidostriatal pathway in the rat 303
Webb C → Kapoor R
Welker E, Soriano E, Van der Loos H: Plasticity in the barrel cortex of the adult mouse: effects of peripheral deprivation on GAD-immunoreactivity 441
Willrich A → Seitz R J
Wilson J F → Tiligada E
Wollberg Z → Pelleg-Toiba R
Wright A K → Walker R H

Yamada M → Yasui S
Yamashita A → Hayashi M
Yasui S, Yamada M: H1 horizontal cells of carp retina have different postsynaptic mechanisms to mediate short- versus long-wavelength visual signals 256

Zarzecki P → Waldron J N B
Zilch O → Lang W
Zimmer J → Tønder N
Zlatkova M → Vassilev A
